La mer. — D'un côté, des rochers. De l'autre, les ruines de la tour d'un antique donjon qui ferment l'anse. — Au milieu du théâtre le barque d'Harald; l'orage s'est apaisé et le reflux a découvert les algues marines et les roches encore humides qui brillent comme des émeraudes à la clarté de la lune. Tout en poursuivant le chant des sirènes invisibles, Harald est venu échouer près des falaises.

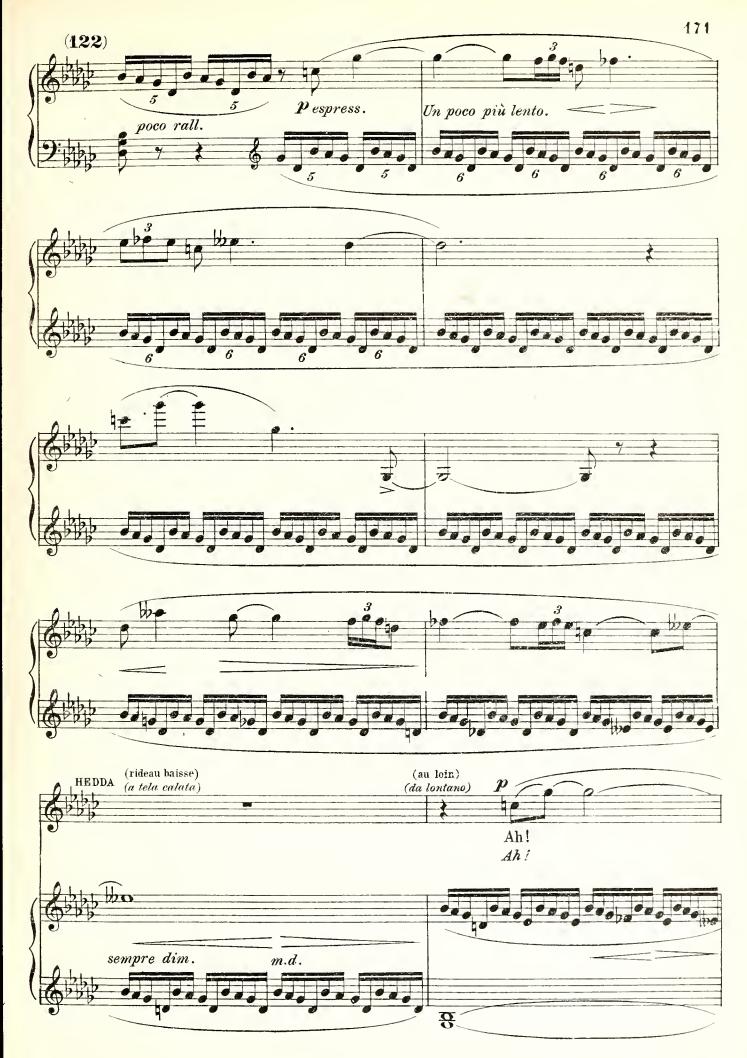

Il flord. — Da un lato, roccie; dall'altro, le rovine della torre di un'antica rocca, che chiudono il piccolo golfo. — L'uragano s'è calmato, e il riflusso ha messo allo scoperto le alghe marine e gli scogli ancora bagnati, brillanti come smeraldi al chiarore lunare. — Attratto dal canto delle sirene invisibili, Harald si è incagliato

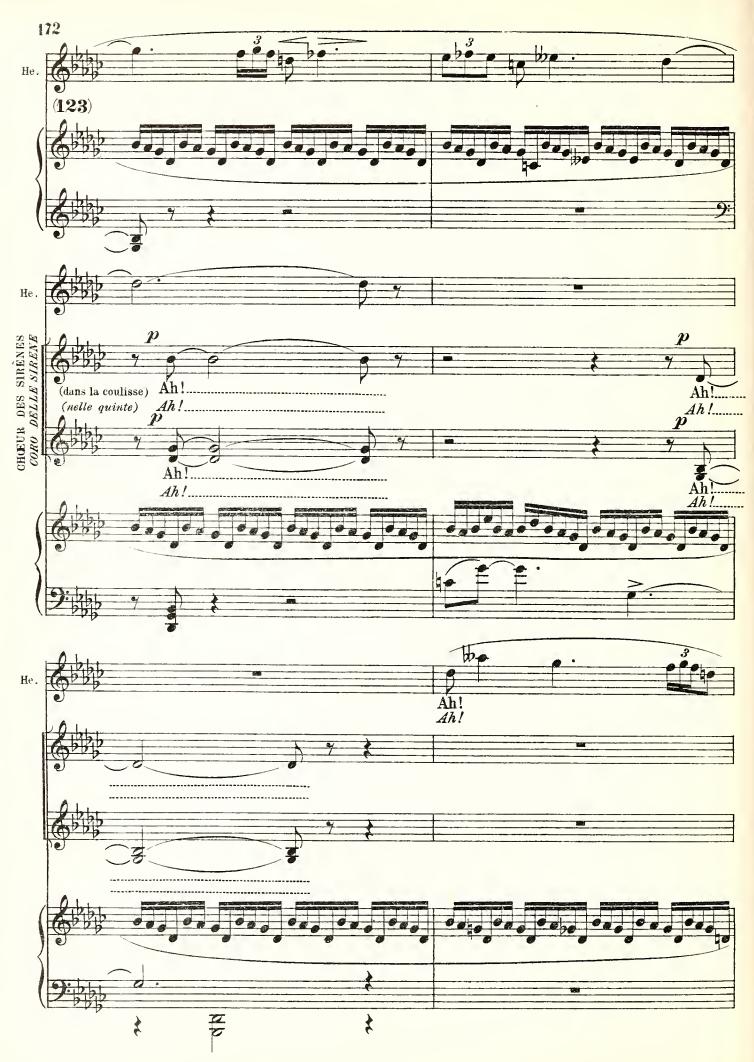

nella costa dirupata.
